## Software Engineer

VC3, Inc.

**Are you ready to take your career to the next level? Are you ready to work with an IT company, instead of a company that has an IT department? Are you passionate about problem solving and customer service?**

### Job Location

Remote

Remote work from: USA

### Date posted

February 22, 2022

**Software Engineers** with VC3 are responsible for developing, implementing, and maintaining software to established standards and specifications using approved programming languages, primarily .NET framework. Responsibilities include coding, testing, debugging, documenting, and maintaining applications of a complex nature.

### Here's what we are looking for:

- 3-5 years of development experience.
- degree in computer science, computer engineering or related field; or equivalent combination of skills and experience.
- Good problem solving and decision-making skills; ability to understand and analyze complex issues and propose general solutions to them; looks for simple solutions first.
- Agile mindset: able to break larger projects into smaller ones that are delivered iteratively.
- Ability to prioritize work based on cost vs benefit and project timelines.
- Ability to build solutions using a combination of programming (ex: C#/.NET & JavaScript) and SQL database querying (SQL Server).
- Able to communicate well with others at VC3 that will be using the tools you build and support; this includes asking questions and providing multiple options, letting others know how to use tools you've created and notifying them about updates.
- Passion for finding answers in system configuration, log, and monitoring data and sharing what you've learned with others.
- Comfortable working with our existing toolsets while simultaneously bringing new ideas and approaches into the team.

### And, here is some additional info you will want to know:

- Applicant selected will be subject to a criminal, credit, and department of motor vehicles background checks and must meet eligibility requirements for access to classified information
- VC3 offers great benefits, including:
  - National health insurance coverage with two plan options
  - FSA (flexible spending account) for health and/or dependent care
  - HSA (health savings account)
  - Vision and dental plans for you and your dependents
  - 100% company paid basic life and long-term disability insurance
  - 401k with a company match
  - And more! See our full benefit guide [here](#)

### What to do next:

We would like you to complete an on-line survey to find out more about your experience, technical skills and expectations: <https://www.cognitofrms.com/VC312/SoftwareEngineerCandidateSurvey>. Please keep in mind the goal is to communicate clearly what you know and put forth your ideas for things you may be unfamiliar with. This is not a test, just a way to learn more about you. We look forward to reviewing your responses.
